Summary

Cybersecurity Researcher, Penetration Tester, and Digital Forensics Practitioner with hands-on experience in Web, API, and Mobile Security Assessments, Bug Bounty, Incident Response, and Malware Analysis. Passionate about offensive security, DFIR, and building practical security solutions while mentoring aspiring cybersecurity professionals.

Professional Experience

2024 – Present

Byte Capsule IT

Penetration Tester

- Collaborating with the security team to perform internal/external penetration tests on client infrastructures.
- Assisting in identifying, validating, and documenting security weaknesses across web apps and network services.
- Participating in the full security assessment lifecycle, from initial reconnaissance to final remediation support.

2026 – Present

Byte Capsule IT

Digital Forensics & Cyber Crime Investigation

- Incident Response: Identifying and neutralizing active cyber threats.
- Evidence Collection: Forensic preservation of digital evidence and logs.
- Threat Tracing: Analyzing attack vectors to identify the root cause of breaches.
- Data Recovery: Extracting hidden or deleted data for investigative purposes.
- Malware Analysis: Investigating malicious artifacts to understand threat behavior.

2023 – Present
cross-platform

Hackerone, Bugcrowd

Bug Hunting

- Active Security Researcher: Proactively identifying critical vulnerabilities on global platforms like HackerOne and Bugcrowd.
- Responsible Disclosure: Delivering high-quality technical reports with Proof-of-Concept (PoC) and remediation strategies.
- Hall of Fame Achiever: Multiple Hall of Fame (HoF) recognitions for securing cross-platform environments.

2025 – Present

Cybersecurity Instructor (Part-time)

- Deliver online training on Ethical Hacking, Web Application Security, and Digital Forensics.
- Design hands-on labs, CTF challenges, and practical cybersecurity exercises.
- Mentor aspiring cybersecurity professionals in penetration testing, bug bounty, and DFIR.
- Develop course materials and technical documentation for students.

Education

2021 – 2022
Dhaka, Bangladesh

Higher Secondary Certificate (HSC)

Dhaka Govt College, Dhaka, Bangladesh
Group: Humanities GPA: 4.00 out of 5.00

Skills

Technical Reporting

Ability to document complex vulnerabilities with clear Proof-of-Concept (PoC) and remediation steps.

Analytical Thinking

Strong problem-solving skills focused on tracing attack vectors and root cause analysis.

Responsible Disclosure

Committed to ethical hacking standards and legal compliance in security research.
